DETAILED ACTION

1. Applicant's amendment and response filed 9/2/03 is acknowledged and has been entered.
2. In view of newly presented claims 79-85 in Applicant's said amendment filed 9/2/03, the following restriction requirement is set forth.
3. This application contains claims directed to the following patentably distinct species of the claimed Inventions III wherein the administered HLA-B35 binding MAGE-A1 peptide comprising SEQ ID NO: 10 is:
 - A) SEQ ID NO: 8
 - B) SEQ ID NO: 9
 - C) a specific disclosed SEQ ID NO that is a fragment of SEQ ID NO: 2 that is not one of SEQ ID NO: 8 or SEQ ID NO: 9

These species are distinct because they are different peptides with different sequences.

Applicant is required under 35 U.S.C. § 121 to elect a single disclosed species (SEQ ID NO or portion thereof) for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

4. This application contains claims directed to the following patentably distinct species of the claimed Inventions III: wherein the claimed method comprises administering at least one isolated HLA binding peptide that is:
 - A) MAGE-A1 HLA binding peptide other than peptides comprising SEQ ID NO: 8
 - B) MAGE-A1 HLA class II binding peptides
 - C) HLA class I or class II binding peptide of a non-MAGE-A1 tumor antigen

These species are distinct because they are different peptides and have different binding specificities and provoke differently restricted immune responses.

Applicant is required under 35 U.S.C. § 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

5. Applicant is advised that a response to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Art Unit: 1644

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 C.F.R. § 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. M.P.E.P. § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. § 103 of the other invention.

6. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Marianne DiBrino whose telephone number is 703-308-0061 (after 1/7/04 the telephone number is 571-272-0842). The Examiner can normally be reached on Monday and Thursday.
